

## CONTENTS

<i>C. Dulucleanu, T. L. Severin, D. A. Cerlinca, L. Irimescu, J. Javorova</i> , Dual-phase steels with low manganese content. Structures and mechanical properties .....	5
<i>G. Golan, M. Azoulay, G. Orr</i> , Recycling rejected silicon wafers and dies for high grade PV cells .....	12
<i>G. Orr, G. Golan</i> , Crystalline quality in aluminum single crystals, characterized by X-Ray diffraction and Rocking-Curve analysis .....	19
<i>H. I. Beloev, A. S. Nikiforov, I. K. Iliev, E. V. Prihodko, M. S. Kucherbayev</i> , Modeling the thermal operation of a petroleum coke-calcining unit .....	26
<i>I. K. Iliev, H. I. Beloev, A. K. Terziev, A. G. Georgiev</i> , Novel flue gases waste heat recovery methodology avoiding wet gas cleaning technologies in thermal power plants .....	34
<i>M. Kramer, L. Eitzinger-Lange, M. Leeb, G. C. Brunauer</i> , Usage of locally produced green hydrogen for peak load coverage in alpine regions and a local community – Simulation based on Austrian communities .....	42
<i>N. Chobanova, B. Kunovska, D. Djunakova, J. Djounova, A. Angelova, Z. Stojanovska, K. Ivanova</i> , The problem with indoor radon and solution in the use of geothermal water .....	49
<i>Y. Sun, L. Miao, F. Yang, W. Sun, Z. Peng, Y. Li</i> , Comparative study of the extracting polysaccharides from Traditional Chinese Medicine Astragali Radix in the field of new biological cellulase-assisted enzymes technology .....	55
<i>Y. Sun, Y. Qi, M. J. Zhang, Y. L. Li</i> , Stronger antioxidant and hepatoprotective components generated from Rubiaceae <i>Hedyotis diffusa</i> with biotinidase in the field of new biological energy technology .....	61
