

Selected papers presented at the International Scientific Conference "Foods, Herbs, Nutraceuticals and Nutrition for Better Health", 26 - 28 July 2024, Varna, Bulgaria

## CONTENTS

|                                                                                                                                                                                                                                                                 |     |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|
| M. Marudova, A. Viraneva, S. Milenkova, B. Shivachev, R. Titorenkova, M. Tarassov, Polyphenols/poly(lactic acid) blends – structure, thermal and electret properties.....                                                                                       | 5   |
| P. S. Bekyarov, S. G. Mihaylova, Impact of the COVID-19 pandemic on antibiotic consumption in the Intensive Care Unit and Gynecology Ward at SHOGAT "Prof. Dr. D. Stamatov" Varna, Bulgaria.....                                                                | 11  |
| N. Ermenlieva, S. Stamova, G. Tsankova, P. Atanasova, V. Marinova, Kr. Laleva, K. Eguruze, E. Georgieva, European and national regulations for the labeling of dairy products - Bulgarian market overview.....                                                  | 17  |
| Ts. Grancharova, Pl. Zagorchev, B. Pilicheva, Green synthesis and photothermal application of superparamagnetic iron oxide nanoparticles for cancer hyperthermia.....                                                                                           | 22  |
| E. Kozuharova, G. A. Malfa, R. Acquaviva, V. Spadaro, D. Batovska, Ch. Stoycheva, P. Marino, F. M. Raimondo, Wild umbellifers traditionally used for food in Sicily and Bulgaria and their health benefits.....                                                 | 27  |
| M. K. Lambev, N. V. Agova, Bibliometric analysis of scientific publications about food supplements.....                                                                                                                                                         | 34  |
| M. H. Docheva, D. M. Kirkova, Evaluation of antioxidant activity of tobacco extracts by CUPRAC and H <sub>2</sub> O <sub>2</sub> assay.....                                                                                                                     | 41  |
| Kr. Mineva, M. Georgieva-Dimitrova, A. Bakhova, Pathologic features in the oral cavity in adolescence with disturbances in the nutritional status.....                                                                                                          | 46  |
| P. Mustakova, I. Ivanov, I. Milkova-Tomova, Physical and techno-functional properties of commercially available plant-based proteins.....                                                                                                                       | 51  |
| P. Mustakova, I. Milkova-Tomova, Zh. Goranova, Kr. Nikolova, D. Buhalova, G. Gentscheva, A. Gerasimova, N. Panova, Innovative applications of <i>Spirulina platensis</i> L. and phycocyanin in food products: effects on the quality of sponge cakes.....       | 57  |
| D. Yaneva, I. Hambarlyiska, N. Petkova, I. Ivanov, D. Vassilev, Microwave-assisted isolation of inulin from shatavari roots - chemical characterization and functional properties.....                                                                          | 63  |
| R. E. Tashev, Hr. H. Nocheva, M. S. Velikova, Hemispheric asymmetry in learning and memory after unilateral infusion of cannabinoid ligands into the CA1 hippocampal area of bulbectomized rats.....                                                            | 70  |
| G. Tsankova, N. Ermenlieva, S. Stamova, G. Nedelcheva, Kr. Laleva, K. Eguruze, A. Tsvetkova, S. Mihaylova, E. Georgieva, Investigation of antibacterial activity of combinations of <i>Thymus vulgaris</i> essential oil and some conventional antibiotics..... | 76  |
| Y. Eneva, D. Lazarov, B. Dogan, Attitudes toward healthy lifestyle among students from two schools in Varna.....                                                                                                                                                | 82  |
| Y. Eneva, B. Dogan, D. Lazarov, E. Lyutfi, A. Kaprelyan, Assessing ChatGPT's effectiveness in designing personalized diet plans for secondary stroke prevention: preliminary reports...                                                                         | 91  |
| R. V. Musinska, D. V. Pavlov, Gastroprotective action of capsaicin: a mini-review.....                                                                                                                                                                          | 101 |
| D. Y. Yordanova, T. M. Tachev, G. Il. Kostadinov, Lipid content analysis in naval cadets at admission: variations across academic years.....                                                                                                                    | 105 |
| V. Docheva, St. Dimitrov, Hr. Todorov, N. Rasheva, Prevention and management of cow's milk allergy in infants.....                                                                                                                                              | 109 |
| Kr. Stefanov, N. Petkova, R. Vrancheva, M. Raeva, Dr. Vassilev, Comfrey ( <i>Symphylus officinale</i> L.) roots – a source of polyphenols and fructans.....                                                                                                     | 117 |
| INSTRUCTIONS TO AUTHORS.....                                                                                                                                                                                                                                    | 124 |
